

A Social Enterprise Powered By Harrisburg University

LEVEL-UP Leadership Development Program

LEVEL-UP supports career development and advancement of professional women in STEM for those currently in manager, leader or administrator roles.

The program focuses on understanding and building Personal Leadership Strengths and the heart of the program is designed around Peer Leadership Circles. Bringing groups together for candid discussion, learning and support, the program design leverages the personal and professional knowledge and experience of everyone in the program.

“Thank you STEM-UP for introducing me to these amazing women! The program provided me with a network of STEM women in my region. Their support and diverse perspectives have been invaluable when I have had to deal with issues ...”

If you have completed our Leadership Development Program for STEM Women or are in a manager, leader or administrator role, join us!
